

I recently learned that the Sinclair group is allowing the highly biased "Stolen Honor" film to be aired prior to the upcoming Presidential Election. I feel like this is not only prejudicial, but also allows the company to exploit the powers of the media based on the owner's political beliefs. This should be stopped but if it is not stopped at least a counter film should be shown as well to offer a balance of opinion.

As a Mass Media company, they should use this for the good of the people in America rather than to campaign for one presidential candidate over another.

I thank your time in this matter and hope that my voice is listened to and heard. Thank you again,  
Katherine Hancock BSW
